TITLE: Comments on the non-indigenous microalgae in the European seas

AUTHOR: ['Fernando Gómez']

ABSTRACT:

The article entitled 'Non-indigenous species refined national baseline inventories: A synthesis in the context of the European Union's Marine Strategy Framework Directive' by Tsiamis et al. (2019, Mar. Pollut. Bull. 145, 429-435) reports a list of 52 non-indigenous microalgae in the European Seas. Comments on the validity of categorizing these species as non-indigenous are reported.
