TITLE: Nutrition: Fall in fish catch threatens human health

AUTHOR: ['Christopher D. Golden', 'Edward H. Allison', 'William W. L. Cheung', 'Madan M. Dey', 'Benjamin S. Halpern', 'Douglas J. McCauley', 'Merritt Roe Smith', 'Bapu Vaitla', 'Dirk Zeller', 'Samuel S. Myers']

ABSTRACT:

Christopher Golden and colleagues calculate that declining numbers of marine fish will spell more malnutrition in many developing nations.
